- **Languages:** C#, Python, TypeScript, JavaScript, SQL (T-SQL), C++, Java, HTML/CSS
- **Microsoft & .NET:** ASP.NET Core (Minimal APIs), Entity Framework Core, Dapper, Blazor, Microsoft Azure, Azure AI Foundry, Copilot Studio, SharePoint
- **Frameworks:** Angular, React, React Native (Expo), Django, Unity
- **Data & DevOps:** Microsoft SQL Server, PostgreSQL, MySQL, Redis, Docker, Git, Linux, Cloudflare, REST APIs
- **AI & Hardware:** LLM APIs (Gemini), ElevenLabs, OpenCV, Amazon Textract, Raspberry Pi 5, LiDAR
- **Spoken Languages:** English (Native), Hindi, Urdu
- **Certifications:** Microsoft Certified: Azure Fundamentals (AZ-900), Cloud Computing (Azure), Azure App Service, Generative AI, Microsoft 365 Copilot, C#, Blazor, Full-Stack Development, Front-End Development, Back-End Development, Web Development, Python, Django, Database Design & SQL, Docker Foundations, Docker, GitHub, Vector Databases, IoT

EXPERIENCE

- **Vensure Employer Solutions** *Software Developer Intern, Innovation Team* Duluth, GA | *Jul 2026 – Oct 2026*
  - Build and maintain full-stack enterprise applications in **C#**, **ASP.NET Core**, and **Angular** for internal business and client-facing tools.
  - Design Minimal API endpoints and data access layers with **SQL Server**, **Entity Framework Core**, and **Dapper**, focused on fast, maintainable queries.
  - Build AI agents in **Copilot Studio** and **Azure AI Foundry** with SharePoint to automate team workflows.
  - Containerize services with **Docker** and configure **Azure** cloud workflows for consistent dev and deployment environments.
- **Trapic LLC** *Founder & Lead Developer* Lawrenceville, GA | *Aug 2025 – Present*
  - Founded and incorporated a mobile app startup; own end-to-end architecture, domains, and infrastructure.
  - Engineered a paired-comparison social ranking app with **React Native**, **Expo Router**, and a **Django** REST backend.
- **Flat Rock Archive Museum** *Web Developer Intern* Stonecrest, GA | *Jun 2025 – Present*
  - Owned the museum's WordPress websites, including SSL setup and Zeffy donation payments.
  - Tuned Elementor layouts, Rank Math SEO, and Cloudflare caching to improve load times and search ranking.
  - Put the museum's **$2,000 Microsoft Azure nonprofit grant** to work for its cloud resources.
- **Nexus AI Club, Georgia State University** *Event Manager* Atlanta, GA | *Current*
  - Plan and organize club meetings and events, handling scheduling and logistics with fellow officers.
- **CVS Health** *Pharmacy Technician* Decatur, GA | *Jun 2024 – Aug 2026*
  - Licensed technician: prescription packaging, drug disposal, and patient care; CPR and immunization certified.

EDUCATION

Georgia State University Expected Dec 2026
M.S. Computer Science 3.43
Atlanta, GA

Jamia Hamdard University
B.S. Computer Science 3.32
New Delhi, India

PROJECTS

- **MedScan (OCR Prescription Scanner)** *Tools: Python, Django, Amazon Textract, Tesseract OCR* *Nov 2025* [GitHub]
  - Built an OCR web app at an MLH hackathon that digitizes printed and handwritten prescriptions, then explains dosage and risks and translates them into other languages.
- **Good Night (Sleep Tracker)** *Tools: React Native, Django, ElevenLabs* *Feb 2026*
  - Developed a sleep tracking mobile app presented at Georgia Tech's Hacklytics.
- **Whispering Witches** *Tools: C#, Unity, Gemini API, ElevenLabs, AI NavMesh* *Feb 2026* [GitHub]
  - Co-built a 3D UGAHacks 2026 game with NavMesh AI enemies and NPCs you can talk to like real people through Gemini API chatbots.
- **FaceScan (Smart Glasses Face Recognition)** *Tools: Python, OpenCV, Raspberry Pi 5* *Mar 2026* [GitHub]
  - Prototyped smart glasses that recognize faces and recall a person's name and where you last met.
- **ParserPro (API Code Assessment)** *Tools: JavaScript, REST APIs, HTML, CSS, Bootstrap* [GitHub]
  - Co-developed a website that uses APIs to explain code and graph sorting algorithms.
- **Ad Button (Android App)** *Tools: C#, Unity 2D, Unity Ads* [GitHub]
  - Built a Unity mobile app with integrated Unity Ads and uploaded it to the Google Play Console.
